I knew she had some personality
I understand that the mistress has not been educated properly So, I don't fault her much But why are you doing nothing ?
She is right in every aspect in this case
She should not be underestimated
So if Lala keeps going on like this
something bad will happen

You lost them again ?!

We had them
I was really confident this time
And then we entered fast current. We were busy trying to keep on course. We then realized that they were gone.
Damn !
I know they are going through those islands
But we can't even approach the area due to insanely fast current I really don't see how they can sail in such a condition
So are you saying you can't even locate their hideout ?
I believe they have the former admirals secret map

He s dead !
But it s very poss ble
that he had a pup !
Not many know that
Ramra s actually cons sted
of two slands
A fortress was constructed
on the other sland
by former kngs n case of
nvas on
Yes

Due to insane sea currents around the island, no one is able to reach the island without Ramira admiral's secret sea chart.
The chart was passed down to only kings and admirals
The island has everything to begin a war Fund equipment place to hold armies All Biyon needs is men
If he raises his sword again ...!

There is no need for you to thank me. You should not move.

It s not good just to be n bed
The m stress shouldn't just be in her bed and get some exerc se as well
Anyway I am glad to see that you are do ng f ne

The majesty is going on hunting now
And the queen is saying good bye him

Perhaps, he will return sooner than usual since both of his wives are pregnant and expecting birth fairly soon
Maybe it will take longer since he is going to catch enough animals for good-luck ceremony
Snow hasn't even melted yet. Are there anything to hunt at all ?
He always went on hunting at this time of year
And it has always been successful hunting
Athough our farm production is so bad that we can't rely on it for food
Our soil is just too bad
I heard you can farm anywhere in Ramra. Is it true ?
Yes

If I give birth to this child

I will most likely never be able to go home

Aunt who s even shorter than ne cheer up
Only a little to go now
I always hoped that
When I age and become useless
I wanted to go back to Ramra and d e there
But f I g ve b rth to th s ch ld
I may not be able to do that

Sibel
When you become an adult
Locate your mother s grave
And move her remains to a better place
I was happy when I had you near you I think she feels the same
Although she had her happiest time in Pinku mountain,
I think she may want to be buried near you.

You know ,don't you Sibel ?
Your aunt loves you very much
I love you as much as your mother did
Even if I have this baby you were my first child

Is he at the hunting sight yet ?
I was told it takes four days to get there So I believe he reached the sight yesterday
I guess I and the mistress should have some time together and get to know each other better while he s not here

You are right that we are neighbors though So..I will forgive your rudeness this time
But if you do something like this again I will not forgive you

We must leave then
We can't endager Pry

Isn't it common for women to die with birth?
The thing is that Tor cared about her very much and now the whole country is shaking with fear
